LD Permit #_____

TYPE II LAND DISTURBANCE PERMIT APPLICATION CITY OF FRANKFORT

Note: The application form and supporting documentation must be completed in its entirety and delivered to **City of Frankfort Public Works Department**, to begin the review process. The omission of required items may be cause for rejection of the submittal without review.

Project Name:	
Project Address:	
Subdivision Name/Lot No.:	
Total Area of Project Site (Acres):	Total Area of Land Disturbance Activities (SF):
Property Owner:	Contact Person:

	oing construction and associated activity pertaining to this permit uant to the approved plans and Chapter 53 Erosion and Sediment Control
Owner or Authorized Agent	Date

TYPE II LAND DISTURBANCE PERMIT EPSC PLAN CHECKLIST

Construction Plan Elements

	Vicinity map showing project location		Current Zoning	
	Location of all lots and proposed site improvements (roads, utilities, structures, etc.)		Location of soil stockpiles and/or borrow/disposal areas	
	100-year floodplain and floodway limits		Existing vegetative cover	
	Locations, size, and dimensions of proposed stormwater systems (pipes, swales, channels, etc.)		Proposed vegetative cover	
			Existing site topography (minimum 2' interval)	
	Offsite construction activities (utility connections, etc.)		Proposed final topography (minimum 2' interval)	
Erosion Prevention and Sediment Control Plan Elements				
	Narrative describing the nature and purpose the project			
	Vicinity map showing project location		Sequence describing stormwater quality measure implementation relative to land	
	Notation of any State or Federal water quality permits		disturbance activities	
	Specific points where the stormwater discharge will leave the site		Stable construction exit locations and specifications (at all points of ingress and egress)	
	Location and name of all wetlands, lakes,		Sediment control measures for sheet flow areas	
	sinkholes, and watercourses on or adjacent to the site		Sediment control measures for concentrated flow areas	
	Identification of all receiving waters		Storm sewer inlet protection measure locations	
	Identification of potential discharges to ground water (abandoned wells, sinkholes, etc.)	_	and specifications	
	100-year floodplain and floodway limits	П	Runoff control measures (diversions, rock, check dams, slope drains, etc.)	
	Pre- and post-construction estimate of peak runoff (per Stormwater Design Standards)		Stormwater outlet protection specifications	
	Adjacent landuse, including upstream		Grade stabilization structure location specifications	
	watershed Locations and approximate boundaries of all disturbed areas (construction limits)		Location, dimensions, specifications, and construction details of each stormwater quality measure	
	Soils map including soil descriptions and limitations		Temporary surface stabilization methods appropriate for each season (include sequencing)	
	cocations, size, and dimensions of proposed stormwater systems (pipes, swales, channels, etc.)		Permanent surface stabilization specifications (include sequencing)	
	Location of soil stockpiles and/or borrow/disposal areas		Computations to support sediment control designs	
	Signed statement by owner or authorized agent that all land disturbing activities will be done pursuant to the approved Chapter 53 Erosion and Sediment Control Measures Ordinance.		Kentucky Licensed Professional Engineer's seal
